

Internal Features of a Catholic Church

Write down the items that can be found inside a Catholic church. Then explain what these objects show about Catholic belief.

OBJECT	This object is important for Catholics because...
Tabernacle	It shows that Catholics believe in the Real Presence. The consecrated hosts are believed to be the whole Christ, humanity and divinity, so are treated with special reverence. The tabernacle is also like the Ark of the Covenant that Moses put the tablet of 10 Commandments in, to show that Jesus is the New Covenant, and the new law of God.
